Algebraic randomization techniques can be applied to hybrid symbolic-numeric algorithms. Here we consider the problem of interpolating a sparse rational function from noisy values. We develop a new hybrid algorithm based on Zippel's original sparse polynomial ...

- 1 Hierarchical Simulation of Substrate Coupling in Mixed-Signal ICs Considering the Power Supply Network**  
 T. Brandtner, R. Weigel  
 March 2002 **DATE '02**: Proceedings of the conference on Design, automation and test in Europe  
**Publisher:** IEEE Computer Society  
 Full text available:  pdf(132.25 KB) Additional Information: [full citation](#), [abstract](#)

This paper presents a novel substrate coupling simulation tool that is well suited to floorplanning of large mixed-signal IC designs. The IC layout may consist of several subcircuits, hence a hierarchical design flow, which is usually used for IC circuit ...
